

Open Evening

It was great to see so many of you at Open Evening. Although this is an opportunity to formally review your child's work and progress, please contact your child's teacher to arrange a mutually convenient appointment if you wish to discuss your child's progress or development at any other time. We are here to work with you for the children's benefit.

Science Week

We had a very exciting Science Week, initiated by the crash landing of an alien spaceship on the school field and mysterious footprints being discovered around the school. By the end of the week each year group had managed to solve a series of puzzles to identify a number sequence for a lock secured to the cabinet discovered amongst the spaceship wreckage. On opening the cabinet, using the codes, a very special map was discovered along with a tray of red sludge covering a very nice science week trophy.

My thanks to Mr Ketley for his support and to Mrs Cooper for organising the week. It was fantastic to see so many children completed immersed in their learning.

School Field

You will have noticed that the school field has been relaid to provide a good quality surface for all our outdoor sports. It will remain fenced off for a number of weeks to allow the new turf to bed in.

Book Week

We look forward to book week next week with visiting poets, theatre groups and storytellers, coupled with World Book Day on Thursday 7th March with children coming in dressed as their favourite book characters. There will also be a range of competitions. To complement this, our Book Fayre will be taking place in the canteen area after school until Wednesday evening.

Red Nose Day

Red Nose Day is on Friday 15th March. In exchange for £1.00 the children may attend school dressed in red clothing. We will then forward our school contribution to the charity.

School Uniform

May I ask you to please adhere to the uniform guidelines as laid out in our Prospectus and on the website. I have asked all staff to be watchful and to send out uniform reminders where variations are spotted. Thank you for your co-operation.

Immersion Room

The fitting of our Immersion room starts on Monday. This will be created in the breakout room at the end of the Year 1 corridor. This will be a tremendous resource for the school with children being able to enjoy a completely immersive and interactive educational experience.

Year 3 swimming

Year 3 swimming has three weeks left and will end on 20th March. It has been great to see how the children have progressed across all levels.

Year 6 residential trip to PGL

We are looking forward to our residential trip to PGL Windmill Hill on 22nd - 25th March. The 77 children and 11 staff will participate in a range of activities over the course of the weekend. My thanks to the staff who will be giving up their time to accompany the children on this trip.
